

U30

(Unique 30)

U30 slide lock is our sales flagship with powerful Audit Trail Capabilities, helping protect your assets directly by giving you the ability to determine who has access to your home. Designed artistically for commercial applications, ProBUCK U30 offers no compromise when it comes to reliability and performance, featuring security, dependability and versatility in attractive designs and finishes.

Benefits & Features

01

Benefit
**You Won't Need Keys Anymore
with Higher Security**

ProBUCK eliminates issues commonly associated with mechanical keyed locks. It's easy to mislay your keys or even accidentally lock them in the home. This isn't a problem with ProBUCK biometric locks. They don't require keys. All they require is your fingerprint.

03

Benefit
**Robust and Flexible Mechanical
Structure with Reversible Handing**

ProBUCK locks are easily reversed for change of hand in the field without disassembling lock case, employing advanced metallurgy and optimal structure design, providing uncompromising commercial-grade quality: tested to over 2 million duty cycles.

05

Benefit
Ease of Installation and Use

ProBUCK biometric door locks are extremely easy to install and use. Easy D.I.Y. installation or retrofit. Works as a standalone unit and requires no wiring during installation, eliminating the expensive material and labor costs of installing electrical wiring. User registration and various settings can be done directly at the device and the process is facilitated by the LCD screen, which allows every user including children and senior to operate easily. They can be easily integrated into almost any type of door today and they work well with most doors as well.

02

Benefit
**Premium Security with Multiple
Locking Methods for Multiple Users**

ProBUCK mortise lock that supports four types of secured locking methods which include fingerprint, password and mechanical key override. Instead of having to make multiple keys for your home; it's easy to program ProBUCK biometric locks for multiple users. Depending on the specific lock, it could hold information for 100 or even more users. This means that you can easily program the lock so it can be used by trusted friends and other family members without a problem.

04

Benefit
**Award Winning Fast and Accurate
Fingerprint Algorithm: BioSure 9.0**

At the core of every ProBUCK locks, state-of-art CMOS DSP and cutting edge BioSure 9.0, one of the world's most powerful fingerprint algorithm assures unrivaled speed and accuracy.

06

Benefit
**Automatic Locking (Clutch Mechanism)
and Double Locking by Lifting Lever**

Another benefit that makes ProBUCK one of the best door locks available is the benefit of automatic locking mechanism. ProBUCK lock automatically locks the door after checking it is properly closed. You can also double secure your door by lifting lock lever upwards (both latchbolt and deadbolt will be locked in this case). This is especially beneficial for families who have kids who may forget to lock the door. You can rest assured that your doors are always locked, since they do so automatically, increasing your sense of safety and security.

07

Benefit
**Anti Break-in/Damage
Alarm Protection**

Alarm will go off if anyone attempts to damage the lock or forces the door open.

10

Benefit
**Visitor-Friendly with
Optional Passage Mode**

Expecting unregistered guests? Passage mode is just the answer to you, which allows free access of the secured area when activated.

...

.....

And much more

With all the benefits Probuuck offers, it's very easy to see why so many home owners are beginning to choose Probuuck Biometric Fingerprint Door Locks globally. It is a smart investment!

08

Benefit
**Low Battery Warning and
Emergency Power Supply**

It warns in case of low battery with alarm and LED. When the batteries are completely discharged, you can easily supply emergency power to that lock with a standard 9V battery.

11

Benefit
**Mechanical Key Override
Protection**

For emergency, it can always be unlocked with a mechanical key ensuring the lock cannot be bumped.

09

Benefit
**Wrong Try Lockout Delay
Protection**

After 3 wrong entries of the PIN code, the lock will go into lockout for 15 minutes, which proved to be very effective in preventing even the most determined thieves.

12

Benefit
Audit Trail Kit

Audit trail kit (USB handset) helps protect your assets directly by giving you the ability to determine who has accessed your home with quick and easy retrieval of audit trails.
